

Community Supported Agriculture:

Our CSA (community supported agriculture) Program is a great way to get to know your farmers and your food better!

All of our members have the opportunity to tour the farm, learn more about regenerative farming practices and ask lots of questions. We plant crops in harmony with the seasons and tend in a responsible way that benefits our local pollinators.

We never, ever, use any chemicals.

Eat Clean, Eat Fresh, Eat Seasonal and Eat Regional. Your share will vary in size and in context according to these principles. In addition to fresh vegetables and greens, there will often be herbs, cut flowers, fruits and even seasonings.

Thank you for supporting your local farm!

How it works:

We must have your empty/assigned/CLEAN cooler at least three days before harvest.

This is three days before your assigned share is distributed.

Coolers may be dropped off any time between 10:30am-7:30pm, any day of the week, at Jeremy's on the Hill.

The owners of dirty/slimy coolers will incur a \$5 cleaning fee.

The owners of clean/well-kept coolers may receive little treats from time to time. Thank you for not annoying the farmers.

If your cooler is not present at the time of packing, for any reason, we will charge a \$25 fee for a new cooler.

Pick up dates are every other Friday (depending on your plan) from 4:00pm-8:00pm, and the following Saturday from 10:00am-9:00pm at Jeremy's on the Hill.

Abandoned/ forgotten CSA shares will be donated to the cause of our choice. We give priority to the Julian Farm to School Lunch Program, families that can't afford a share, and if all else fails or the produce goes bad, our farm chickens will be the lucky beneficiaries.

We will of course work with you if you are going out of town. Please allow two weeks notice to avoid share problems.

Please call for questions related to families, juicing or options for Vegans/Vegetarians.
